

Cameras In Paris

The Fixx

A call is taken
The plans are made
The pawns are placed
For the masquerade
Closed hotel rooms
Off the Place Pigalle
All concealed
Behind the femme fatale
Take it from me
There's cameras in Paris
Take it from me
There's cameras in Paris

Political friction is greased by detente
One country can and another one can't
All the movements in a metaphor
Who is the sleeper found dead on the floor
Take it from me
There's cameras in Paris
Some papers are missing
Exposure's automatic
Exposure's automatic
Exposure's automatic
In Paris

Umbrellas rolling in Hyde Park
Announcement made don't be seen after dark
Tension rising in the Eastern Block
Who are the two men with the
Same swiss clock

Take it from me
There's cameras in Paris
Some papers are missing
There's cameras in Paris
So take it from me
There's cameras in Paris
Some papers are missing
Exposure's automatic
Exposure's automatic
Exposure's automatic
In Paris

So take it from me
There's cameras in Paris
Some papers are missing
Exposure's automatic
Exposure's automatic
Cameras in Paris
Cameras in Paris
Exposure's automatic
