

# Lose Face

The Fixx

Forbidden Image  
Do you care to think on

One trouble shooter  
That we could fix on  
This fevered globe  
Was always meant to be  
A home from home  
But who's looking after

Lose face, lose face  
In your place

Could we all fight in  
An age demented  
With a white bright light  
That shines at night  
What have we invented?  
We all breathe in the same air  
Yet we all die for the air space

Lose face, lose face  
Standing in your place  
(Don't you worry that you're too scared)  
Lose face, lose face  
I bet you wonder if you're too scared  
Too scared to lose face  
(Don't you worry that you're too scared)  
Lose face, lose face in your place

Lose it  
Lose it  
Come on  
Lose it  
Lose it

A "pied a'terre"  
No phone connected  
So when you need him  
Can't even reach him

This fevered globe  
Was always meant to be  
A home from home  
But who's looking after

Lose face, lose face  
Standing in your place  
(Don't you worry that you're too scared)  
Lose face, lose face  
I bet you wonder if you're too scared  
Too scared to lose face  
(Don't you worry that you're too scared)  
Lose face, lose face in your place

Lose it  
We all lose

Lose it  
Breathing the same air  
[repeat x3]
