

# Lost Planes

The Fixx

When you're hanging from a parachute  
The whistling wind might play your flute  
So forget it  
Lost traffic

Someone said you couldn't fly the plane  
So I guess this journey's all in vain  
So forget it  
Lost traffic

We're on a lost plane  
Should've taken the train  
We're on a lost plane  
So forget it

Flying high but your fuel is low  
How far can a missing plane go  
So forget it  
Lost traffic

Tell you that you're flying radar  
But it's that much safer to take that car

We're on a lost plane  
I should've taken the train  
We're on a lost plane  
So forget it  
We're on a lost plane  
I should've taken the train  
We're on a lost plane  
So forget it

We're on a lost plane  
I should've taken the train  
We're on a lost plane  
I should've taken the train

We're on a lost plane  
I should've taken the train  
We're on a lost plane  
So forget it

So when you're hanging from a parachute  
The whistling wind might play your flute  
So forget it  
Lost traffic

Tell you that you're flying radar  
But it's that much safer to take that car

We're on a lost plane  
I should've taken the train  
We're on a lost plane  
So forget it

We're on a lost plane  
I should've taken the train

We're on a lost plane  
So forget it  
We're on a lost plane  
I should've taken the train  
We're on a lost plane
