

Neverending

The Fixx

Off we go
We never stay
The wild calls
We'll be on our way
Here and now
Do or die
Nightfall begins another day
And as we walk away
The memories stay
We threw stones
And the ripples are neverending

The to and fro
An energy
The driving force dictates the pace
A common ground
A fireplace
Beckons warmth reflecting on our face

Come what may
Today's the day
At no other point now
Its neverending

The straights we carve
Curve and swing
The way unfolds
Its neverending

This constant pull
Another push
The rush is all
Its neverending

Through ups and downs
The sights and sounds
Life surging in our veins
Its neverending

We shall return lessons learned
Forged by a love
Its neverending

Through thick and thin
We don't give in
The life we weave
Its neverending
And as we walk away
The memories stay
We threw stones and the ripples are neverending
