

## Ocean Blue

The Fixx

I like to hear the waves crash against the shore  
It's the only place that I feel better  
I watch them roll for hours, they take me far away  
It's where I feel secure, where I want to stay

Ocean blue, senses and soul renew  
Ocean blue, forgive all the wrong I do

Life goes by so fast it's never really ours  
A year, a week, a day, minutes into hours  
Mother of creation, temple of the womb  
Take me in your waters, darling, I'm coming home

Ocean blue, senses and soul renew  
Ocean blue, forgive all the wrong I do

I feel your force now so great over the land  
I feel it wash away, wash away where I stand  
Rolling in all virtue, power and in command  
Take me in your waters, darling, I'm coming home

Ocean blue, I'm know I'm made of you  
Ocean blue, forgive all the wrong I do

This life goes by so fast it's never really ours  
A year, a week, a day, oh, minutes into hours  
Mother of creation, temple of the womb  
Ocean blue, oh, ocean blue
