

# Want That Life

The Fixx

Want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life  
Want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life

I'll she'd my load  
Do I really need what I think I need?  
I'll she'd my load  
When I face the facts, then I know it's greed  
I'll she'd my load  
Easier said than done, my friend  
I'll she'd my load  
Do I really need what I think I need?

I want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life  
Oh, want that life, need that life  
Oh, but how to find that life?  
Want that life, need that life

I'll she'd my load  
Do I really need what I think I need?  
I'll she'd my load  
When I face the facts, then I see the greed  
I'll she'd my load  
Easier said than done, my friend  
I'll she'd my load  
Do I really need what I think I need?

I want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life  
Oh, want that life, need that life  
Oh, but how to get that life?  
Want that life, need that life

I can't plan it, will I have it  
How I want it?  
Instead I bear this heavy load  
Around me, it surrounds me  
Has it found me?  
Oh God, do I dare just let go?

Oh, want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life  
Want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life

I am what I am  
Shoot for the stars, but I miss the moon  
I am what I am  
If it's for your love, then I would die too soon

I am what I am  
Gamble my life on a simple tune  
I am what I am  
Shoot for the stars, but I miss the moon

Want that life, need that life  
Oh, but how to live that life?  
Want that life, need that life  
You know I want that life  
Want that life, need that life  
You know I want that life  
You know I want that life

I can't plan it, will I have it  
How I want it?  
Want that life
