

You Know Me

The Fixx

You know me
I'm not one for making little excuses
You know me
I'm not one for driving away from the scene
You know me
I won't leave you waiting at the bus stop for that long
You know me
I'm a contradiction in terms

So don't judge a book by it's cover
Don't count your chickens before they hatch
We're all looking for that super lover
Me, I need the spiritual touch
Something where the road unwinds
Deep in the back of my mind
It gets bigger than the both of us
And it's more than sexual
More than sexual

You know me
I'm the dark horse that may just win the race
You know me
I'm the black sheep who conquered the universe
Oh, you know me
I'm unpredictable, sly, but I've got a sense of right and wrong
Oh, you know me
Ooh, well, I'm the smile on your face if I'm anything at all

So don't judge a book by it's cover
Don't count your chickens before they hatch
We're all looking for that super lover
Me, I need the spiritual touch
Something where the road unwinds
Deep in the back of my mind
It gets bigger than the both of us
And it's more than sexual
More than sexual

So do you know me?
Do you, do you, do you really know me?
Do you know me?
Do you, do you, do you really know me?

So don't judge a book by it's cover
Don't count your chickens before they hatch
We're all looking for that super lover
Me, I need a spiritual touch
Something where the road unwinds
It's deep in the back of my mind
It's bigger than, bigger than, bigger than the both of us
More than sexual
More than sexual
More than sexual
More than sexual

Do you know me?
(More than sexual) Oh, do you really know me?

(More than sexual)
(More than sexual)

(More than sexual) Where the road unwinds
(More than sexual) Deep in the back of my mind
(More than sexual) Do you really know me?
(More than sexual) Do you really know me?

(More than sexual)
(More than sexual)
(More than sexual)
(More than sexual)

(More than sexual)
(More than sexual)
(More than sexual)
(More than sexual)
