

## A Kiss From Your Lips

The Flamingos

A kiss, from your lips, changed my whole life around  
A kiss like yours, no where can be found  
Gee gee how blest I am, to have a kiss from your lips  
A kiss from your lips, holds a story still untold  
A kiss from your lips, more precious oh than gold  
Gee gee how blest I am to have a kiss from your lips  
I've loved for many years  
And kissed oh oh a thousand lips  
But nothing went right, until that night  
I slipped a kiss from your lips  
A kiss from your lips, changed my whole life around  
Gee gee how blest I am, to have a kiss, from your lips
