

## Ten Times Blue

The Fleetwoods

I'm sadder than sad  
Lonelier than lonely  
And you can add misery  
Just like five times two equals ten  
Ten times blue equal me

I was your only love  
You were my one girl  
But when he came along  
My world went wrong  
And time broke down  
And all my dreams came crashing down to the ground

And now I'm sadder than sad  
Lonelier than lonely  
And you can add misery  
Just like five times two equals ten  
Ten times blue  
Ten times blue equals me

When I was in your arms  
The world was beautiful  
But what you said to me so tenderly  
Was never true  
Last night I saw you kissing someone new

And now I'm sadder than sad  
Lonelier than lonely  
And you can add misery  
Just like five times two equals ten  
Ten times blue  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me  
Ten times blue equals me
