

They Tell Me It's Summer

The Fleetwoods

They tell me it's summer (it's summer)
But I know it's a lie
Cause summer's for laughing
So why do I cry? (cry)

They tell me it's summer (it's summer)
And the sun shines, it's true
But it just can't be summer
When I'm not with you (it's just can't be summer)

They tell me to call you
But I still have my pride
I remember the things you said
And all the nights that I cried

They tell me it's summer (it's summer)
So I look to the sky
But I can't see the sun shine
Cause there's tears in my eyes

The days don't grow longer (longer)
As in summer they do
It's the nights that are longer
Cause they're nights without you (they tell me it's summer)

The days don't grow longer (longer)
As in summer they do
It's the nights that are longer
Cause they're nights without you (they tell me it's summer)
