

## Minor Giant Steps

## The Flower Kings

Now imagine, can you, can you, if you will  
See the sunrise "colorize" the hills  
All the waters running down the mountain streams  
Flood of Eden bring to life this dream

Tiny steps,  
Minor giant steps in the world unite  
Tiny steps, in the wisdom ramp  
Minor giant steps in the world unite

On the mountain side, silver thread unwind  
Gently linger on, crystal waters chime  
Watch the engineer get the details right!  
Watch him shape the day  
Out of the darkness comes the light  
Out of the darkness and the night

Tiny steps, in the wisdom ramp  
Minor giant steps in the world unite

Now we understand how we play a part  
In the tireless games  
All the beauty there is  
Our perception of the dream  
Sharing equally, all like players of a team

Sixtynine, we're walking on the moon  
Sending those waves to see if we're alone  
50 million keep choking in the sun  
Nothing learned from life still dog eat dog

It's just a transmission so we don't mind  
But what about God and what lies behind  
Those patterns are old and make no sense  
So keep on exploiting until the end

The Masterminds create the new frontiers  
So "Einstein me" please I wanna see it clear

Bit by bit they took this world apart  
there's no more secret left as it hit the market

It's just a transmission so we don't mind  
But what about God and what lies behind  
Those patterns are old and make no sense  
So keep on exploiting until the end

I'm just the minor giant soul  
Trying so hard to understand  
The things that I cannot see  
arise from inside of me

Coming to terms, to lose control  
See how a man becomes a soul  
If thinking is wider than the sea  
arise from the dream within a dream

It's strange how life's illusions turn  
They look so different around the corners  
I wasn't prepared for such a journey  
and now there ain't no turning back

It's strange how words can start a war  
They call it the domino syndrome  
(actually, it's the domino theory ;-)  
A new world is hiding behind the door  
A world that's always been there

I'm just a minor giant bird  
Sitting on someone's shoulder  
and she might undertake this journey  
while I keep getting older

She once was brighter than the sun  
I may have been her soulmate  
She couldn't speak while she was dumb  
but I couldn't figure it out

It's strange how life's illusions turn  
They look so different round the corners  
I wasn't prepared for such a journey  
and now there ain't no turning back

It's strange how words can start a war  
They call it the domino syndrome  
A new world is hiding behind the door  
A world that's always been there
