# Dear Future

**The Fold**

Memories they haunt me, yeah they trickle in like rain.
I have no choice these things effect me cast their shadow on the day.
Yet through the haze I stand completed.
Yeah, as spotless as can be.
I do believe this choice I've taken, so today is a beautiful day.

So we rewind back to the times when life's not making any sense...
you would hold me, you'd understand.

My lonely nights are over, you know the type, here's to getting out alive.
Dear future, come get me.
I'm ready now, for anything.

Here I lay in wait for better days to smile on me.
I have no strength this world is freezing, cast away my apathy.
It's time I bid farewell to discord, those are years I won't get back.
Say so long to yesterday, today is a beautiful day.

So we rewind back to the times when life's not making any sense...
you would hold me, you'd understand.

Dear future, come get me.
I'm ready now, for anything.
These lonely walls surrounding me.
The past has taught me everything,
Dear future, come get me.
Stay on my side, here's to getting out alive.
Scratch a letter on my hand and it will say:
"Dear future, come get me".

Dear future, come get me.
I'm ready now, for anything.
These lonely walls surrounding me.
The past has taught me everything,
Dear future, come get me.
Stay on my side, here's to getting out alive.
Scratch a letter on my hand and it will say:
"Dear future, come get me".
