

## What Is Right

The Fold

And I know that it's in you to accept what is right  
But there's something in your way tonight  
And I know that it's in you to accept what is true  
But maybe it's a broken heart away from you

You react but refuse to respond to poison  
When it's eating away at you  
And I know that it's in you to accept what is right  
What is right, what is right
