

## Checking In

The Folk Implosion

With the winds and mountains  
Pure and kind and ending  
I could be a landscape  
You can find the time to live in  
Run away, you won't get far  
Winds'll have you spinnin'  
Trap you in a city  
I'm back to the beginning

Checking in  
Check it out  
Drink it in  
Just in  
Take it in  
Check it out  
Pair of drunken derelicts  
Passed out in the stairway  
Rumble in the rafters  
Signs from the subway  
Left another message  
Something tells me you're not lonely

Run away to find you  
There's nothing that you owe me

Checking in  
Check it out  
Drink it in  
Just in  
Take it in  
Check it out

I'm checking in  
Check it out  
Just in from a long way up

To the winds and mountains  
Searching for an ending  
Running from the city  
Back to the beginning

I'm checking in  
Check it out  
Just in from a long way up  
I'm checking in  
Check it out  
Just in from a long way up
