The Folk Implosion

We're healthy and stealthy  
A wide web to be caught in  
In tip-top shape  
On the paradise freeway  
We flow and flounder  
As the valley unfurls

Show no boredom  
Like a kindergarten haircut  
Tic tac toe I  
I should be poor but  
I stuff the mattress  
With the white bread melodrama  
Bring it on  
Homespun  
Widespread  
If you wanna be  
Be

Be  
Hello to the bored and calloused  
Green with envy  
We've been hungry too

You know survival's never been a dirty word  
Tied to the ground, not flying with the birds  
Though I'm prepared to take air  
My wings are heavy and I can't get anywhere  
Too bad  
Bad  
Bad

Homespun  
Widespread  
Unfroze
