

I Struck Gold

The Forester Sisters

Forever it seemed my long search for love
Only led me down a troubled path
And too many times I gave my heart
Just to have it broken into half

Then I struck gold
I struck gold
Someone who wants to understand
Someone who loves me as I am
Who's not afraid to give his heart and soul

Never knew love so true
Beyond a shadow of a doubt
I learned what love is all about
You warm the nights that once were cold
I struck gold

I've heard all the lies
I've lived with the pain
I've cried till I could cry no more
But the very first time I looked in your eyes
I knew what I was searchin' for

Then I struck gold
I struck gold
Someone who wants to understand
Someone who loves me as I am
Who's not afraid to give his heart and soul

Never knew love so true
Beyond a shadow of a doubt
I learned what love is all about
You warm the nights that once were cold
I struck gold

Beyond a shadow of a doubt
I learned what love is all about
You warm the nights that once were cold
I struck gold
I struck gold
I struck gold
I struck gold
