

Leave It Alone

The Forester Sisters

You don't think causing trouble 'round town
You and this thing been runnin' round
Now I don't know nothing
Don't you think giving back these years
Words burn hotter than the salt in these tears
And I should know something

You gotta leave it alone, leave it alone
Don't you even think about comin' back home
Wishing too hard, baby I'm gone
Leave it alone, leave it alone

Every other night I hear the same old lie
You're going out with the boys
You better think it out
Can't live without you

Maybe this time
You better make up your mind
You better learn about leavin' and leave lovin' behind
And I'll show you how to

You better leave it alone, leave it alone
Don't you even think about comin' back home
Push too hard
I'll be gone
Leave it alone, leave it alone

Yea, leave it alone, leave it alone
Take it any further you'll be on you own
Push too hard, baby I'm gone
Leave it alone, leave it alone

No more games
Or I'll be gone forever
It takes two to keep this thing together

Leave it alone, leave it alone
Don't you even think about comin' back home
Push too hard, I'll be gone
Leave it alone, leave it alone

Leave it alone, leave it alone
Take it any further
You'll be on you own
Push too hard
Baby, I'm gone
Leave it alone, leave it alone

Leave it alone
Leave it alone
Leave it alone
