

From the flesh I feed - I am the one
Through your veins I am complete
From the flesh I breed - I despise you
Through your veins I lay my seed
I am the reaper - the one you curse
I am the very soul - yours to fear
I am the reaper - the one to remain
I am the very soul - your disease
The colonies' growth is my command
I was the firstborn - your fate I control
My existence is your breath - your demise
I was the firstborn - your fate I control
I am the cornerstone of this creation
You know me but you deny me
I am the foul creature of the soil
You cannot deny me...
I am the reaper - the one you curse
I am the very soul - your disease...
Confront me - dethrone me?
I will abase you till the end
The concubine of your soul
The restless face inside
The research of your kind
The predator of your dreams
The slave under death
The one that gain your life
I...I...I...I...
I am the reaper - the one you curse
I am the very soul - the one you fear
I am the reaper - the one to remain
I am the very soul - your disease
The grace I possess is your doom
Your race is mine to explore
I see through the eyes of the dead
I am the reaper - the one you possess
Confront me - dethrone me?
Till the end - I will abase you
Confront me ? I am the immortal
Your soul - your diseased
