

This Time

The Four Seasons

Don't you know
It's so easy to love you?
Had to be
I've been dreaming of you
Yesterday
We were close for a moment, but you were torn away
Now you know I'm not letting you leave me

This time we'll touch the flame together
This time it's gonna be forever
Lost you once before
But we can have it all
This time

In my life
Everything is about you
So you see
I just can't live without you
Here I stand
Holding you, I remember love was in my hands
And you know I'm not letting you leave me

This time we'll touch the flame together
This time it's gonna be forever
Lost you once before
But we can have it all
This time

This time we'll touch the flame together
And this time it's gonna be forever
Lost you once before
But we can have it all
This time

I lost you once before
But we can have it all
This time
