## The Frames

**F G** (2x)

**G F G**  
I'm on a plateau  
**F G**  
its not where I belong  
**F G**  
its taken so many years  
**F G**  
to figure out my way  
**F G**  
upon this plateau  
**F G**  
its all been said and done  
**F G**  
and every time I try  
**F G**  
the words make little sense until you're gone

**Ami7+ Ami7\***  
And everything must change  
**Ami7+ Ami7\***  
everything must change

**F G**  
Upon this plateau  
**F G F G**  
the diamond sky's enough to take you miles ahead  
**F G**  
where the past can't ever catch us  
**F G**  
and all your good friends  
**F G**  
are gathering all around  
**F G**  
they say the time is now  
**F G**  
and so I must resolve to say

**C F**  
It's just me myself again  
**C F**  
and I'm just talking to the wall this time  
**G F**  
it's just me myself and I  
**F G F G**  
deciding on a plan  
**F G F G**  
deciding on

**Ami7+ Ami7\***  
And everything must change  
**Ami7+ Ami7\***  
everything must change inside you now  
**Ami7+ Ami7\***

everything must change inside and out

**Ami7+**

**Ami7\***

everything must change, change...
