

# Slow

The Fratellis

If I had an audience  
I'd cover my face  
Lock away myself  
In a lonesome place

If I'd had a premonition  
Of how this would be  
I would still have begged  
And took you home with me  
Still have done it all  
Done it hopelessly  
And bury myself when all I could see

Well I lost my heart when my back was turned  
If you see it could you let me know?  
And if you've got to leave me, baby  
Won't you do it slow?

If I had a crystal ball  
I still wouldn't see it all  
I swear I didn't do it  
Just to make you crawl

And if I had a audience  
I'd ask them to leave  
How can I give them what I can't recieve?  
How can I pray when I just don't believe?  
And sometimes it takes  
All your heart just to breath

Well I lost my heart when my back was turned  
If you see it could you let me know  
And if you've got to leave me baby  
Won't you do it slow?

There's nothing I wouldn't give in this world  
To be the man you met long ago  
And if you've got to leave me baby  
Won't you do it slow?

If you've got to leave me baby  
Won't you do it slow?

Oh let me see  
Don't linger at my door  
Tell me again  
Was it to you I swore  
That noone would play  
With your heart anymore?

Well I lost my heart when my back was turned  
If you see it could you let me know  
And if you've got to leave me baby  
Won't you do it slow?

If you've got to leave me baby  
Won't you do it slow?

If you've got to leave me baby  
Won't you do it slow?

If you've got to leave me baby  
Won't you do it slow?
