

## Corners

## The Fray

Home is where my head lays  
On this pillow on your chest  
Here is where my heart stays  
Even when it's not the best

And I can see all of the lights  
And I can see the other sides  
And it's nice  
Mmm, it's nice

I keep finding  
I keep finding something  
I keep finding all your corners  
I keep finding  
I keep finding something  
I keep finding all your corners

It is nice  
Real close and personal  
It's a different point of view  
Every turn is critical  
Walking on the edge of you

I can see all of the lights  
And I can see the other sides  
And it's nice  
Mmm, it's nice

I keep finding  
I keep finding something  
I keep finding all your corners  
I keep finding  
I keep finding something  
I keep finding  
When everything you love goes bad  
You love until they love you back  
It doesn't matter what we said  
I'll never stop loving you back  
Never stop loving you

I'm falling  
Ever since you came  
Are you all in? Or have you changed?  
I'm calling for you name  
Are you? Are you?  
No matter where the wind may blow  
I wanna be there when you're old  
I'm falling  
Since you came  
Are you? Are you?

I keep finding  
I keep finding something  
I keep finding all your corners  
I keep finding  
I keep finding something  
I keep finding

When everything you love goes bad  
You love until they love you back  
It doesn't matter what we said  
I'll never stop loving you back

When everything you love goes bad  
You love until they love you back  
It doesn't matter what we said  
I'll never stop loving you back  
Never stop loving you
