

It's hard to let you know that I need your help  
I am a domino  
I'm falling one by one  
And I don't know why  
And I'm sorry

Tell me that it's easy  
When it's cold, you get close to me, please  
Take away all of these troubles  
I need a brighter sun  
And okay, I'll try another day

My history can tell that I repeat myself  
And I don't know why  
All arguments aside, I'm wrong and this is mine  
And I'm sorry  
Tell me that it's easy  
When it's cold, you get close to me, please  
Take away all of these troubles  
I need a brighter sun  
And okay, I'll try another day

Tell me that it's easy  
When it's cold, you get close to me, please  
Take away all of these troubles  
I need a brighter sun  
And okay, I'll try to live

And it's easy  
When it's cold, you get close to me, please  
Take away all of these troubles  
I need a brighter sun  
And okay, I'll live like I was 21  
And okay, I'll follow you and I'll fight again  
And okay, I'll try another day
