

Emerald

The Fray

You came out of thin air
I must've done something right
Best times come out of nowhere
Will you stay with me tonight?

We can sing to the twin stars
Till the dark meets the light
We can dance in the dive bars
Let the magic pull us tight

What a dream it can be
When you set somebody free
It's just you, it's just me
Till you love somebody

You're the heart of my heart
And I'm never alone
All the dreams that you spark
Yeah, I set 'em in stone
My emerald

Let's climb in the backseat
At home with our silhouettes
And take a walk on the side streets
Say the words we kept under our breath

What a dream it can be
When you set somebody free
It's just you, it's just me
Till you love somebody

You're the heart of my heart
And I'm never alone
All the dreams that you spark
Yeah, I set 'em in stone
My emerald

Forever you'll know, we're never alone, yeah
Forever you'll know, we're never alone
My emerald

You're the heart of my heart

You're the heart of my heart
And we're never alone
All the dreams that you spark
Yeah, I set 'em in stone, set 'em in stone
My emerald
My emerald
