

# Time Well Wasted

The Fray

Driving all night  
Staying up late  
Talking about how we're gonna get out of this place

Stars in our eyes  
Dreaming big dreams  
Baby it was always you and me

Never thought we'd get lost  
Never thought we'd get broken  
Never thought we'd move on  
But it was gone and we know it  
Never would've worked out  
Even though we couldn't save it  
It was time well wasted

Do you still talk  
To our old friends  
Do you still think about us on the weekends  
We don't watch  
The same sunset  
Even though we know it's for the best  
It doesn't mean I miss you any less

Never thought we'd get lost  
Never thought we'd get broken  
Never thought we'd move on  
But it was gone and we know it  
Never would've worked out  
Even though we couldn't save it  
It was time well wasted

Ooo, Ooo  
Ooo, Ooo

Never thought we'd get lost  
Never thought we'd get broken  
Never thought we'd move on  
But it was gone and we know it  
Never would've worked out  
Even though we couldn't save it  
It was time well wasted

Driving all night  
Staying up late  
Talking about how we're gonna get out of this place
