

# Wherever This Goes

The Fray

We could slow down  
Waste away in this town  
Standing on the sidewalk  
Watching this parade  
Or we could get out  
Pack our suitcase right now  
Find ourselves a bus stop,  
Make our own way!

Cause it feels like I've been here forever  
Afraid to beat my father, and afraid to leave him too  
But it's my name I painted on the doorway  
Tells me where I came from and what I gotta do!

Wherever this goes (goes), no matter how far (far)  
Baby, you are the song that's written on my heart  
Wherever we stand, wherever we fall  
It don't matter at all, cause I will be forever yours  
From this moment till the day the curtains close  
Wherever this goes!

So we're here now  
Finally found our way out  
On the road to some place,  
Some place that we don't know!  
But it's alright,  
Keep on driving all night  
Straight on through to till morning,  
I don't know which way to go

Cause it feels like we've been here forever  
I don't know how much farther or where we're going to  
But it's our name painted on the doorway  
Tells us where we came from and what we gotta do, oh, oh, oh

Wherever this goes (goes), no matter how far (far)  
Baby, you are the song that's written on my heart  
Wherever we stand, wherever we fall  
Don't matter at all, cause I will be forever yours  
From this moment till the day the curtains close  
Don't matter at all, cause I will be forever yours  
Wherever this goes! No matter how far,  
Baby you are the song that's written on my heart  
Wherever we stand, wherever we fall  
Don't matter at all, cause I will be forever yours  
From this moment till the day the curtains close  
Don't matter at all, cause I will be forever yours  
Wherever this goes (3x)
