

# Impossible

## The Friday Night Boys

You were fallin' from the sky  
Every moment passed me by  
And I know it won't get easier  
I was up at 6 a.m.  
You were running through my head  
Don't want this tomorrow  
But every second feels like a lifetime

I'm never the first to know  
She's so impossible  
I can't get out of my head into her bed  
Tomorrow  
She don't know what I'm feeling  
Tonight I lost control  
Impossible

I was stuck inside my room  
I was slippin' into you  
And it was so much easier  
But if I was just like you  
I'd be on my way so soon  
And I would feel so senseless  
But every second feel like a lifetime

I'm never the first to know  
She's so impossible  
I can't get out of my head into her bed  
Tomorrow  
She don't know what I'm feeling  
Tonight I lost control  
Impossible

She won't stop running away  
Far from me  
I'm crashing down  
Too late  
You were fallin' from the sky  
Every moment passed me by...

I'm never the first to know  
She's so impossible  
I can't get out of my head into her bed  
Tomorrow  
She don't know what I'm feeling  
Tonight I lost control  
Impossible  
(2x)
