

Everywhere you go, I can see your eyes  
Talking to your face, it's you  
You're already dead, I'm a stupid boy  
Everything is cool, it's true  
Upside my mind, I can feel your breath  
Everything you do, it's you  
We're all going home, talking to your friends  
Making it alright

Fuck you...

Everything she is, it's already known  
Going through my head, it's you  
Talking to her friends, looking in my mind  
Staring at her tits, so cool  
I already know, it's too much to say  
Everything is lame, but you  
Let me go away, let me see your mind  
It's already late

Fuck you...

Everywhere you go, I can see your eyes  
Talking to your face, it's you  
You're already dead, I'm a stupid boy  
Everything is cool, it's true  
Upside my mind, I can feel your breath  
Everything you do, it's you  
We're all going home, talking to your friends  
Making it alright

Fuck you...
