Over It

The Frights

I don't need to say, what I said before
You never listen to me anyway my voice is sore
I'm not sick at all, I'm just sick of you
And now you're coming back but I don't fucking miss you

I never thought that you, would be the one to break
Now every time I see your name I get a stomach ache
I know I did my best, I never sent a text
And now I'm sitting wishing aren't you fucking dead yet

You seem to think that we're more than this
Aren't you over it? Aren't you over it?
Don't try to act like you gave a shit
Aren't you over it? Aren't you over

We used to be something I admit
Aren't you over it? Aren't you over it?
I used to think we were over this
Aren't you over it? Aren't you over

You open up again, I'm closing every door
Cause once you called it off I never said I wanted more
It's hard to be this way, when you know everything
And you're still hurting me for reasons that I can't explain

I need to figure out, a way to let it go
It's not okay to be afraid of someone I don't know
And I could give it up, but that would make me think
About how I'm freaking out every time my phone rings

You seem to think that we're more than this
Aren't you over it? Aren't you over it?
Don't try to act like you gave a shit
Aren't you over it? Aren't you over

We used to be something I admit
Aren't you over it? Aren't you over it?
I used to think we were over this
Aren't you over it? Aren't you over

You seem to think that we're more than this
Aren't you over it? Aren't you over it?
Don't try to act like you gave a shit
Aren't you over it? Aren't you over

We used to be something I admit
Aren't you over it? Aren't you over it?
I used to think we were over this
Aren't you over it? Aren't you over

You seem to think that we're more than this
Aren't you over it? Aren't you over it?
Don't try to act like you gave a shit
Aren't you over it? Aren't you over

We used to be something I admit
Aren't you over it? Aren't you over it?

I used to think we were over this
Aren't you over it? Aren't you over

I used to think we were over this
Aren't you over it? Aren't you over
