

Wasted Mind

The Frights

I dug myself a hole in my heart
Burned me like a cigarette
Cut out the useless pieces and parts
Thoughts I wish I never had

I swore, I had been worked on before
God, I never felt like this
"Slow down, so I can even the score."
Dumbest thing I ever said

I saw my left hand shaking
'Morning after drinking
With my right hand I covered my eyes
I never felt this funny
When I was in my twenties
Now it's happening every time
Waking on a wasted mind

Get out and wash the dirt from your mouth
Head feels like a cannonball
Breathe in, taste the whisky and gin
Swore you'd barely drink at all

She's sick of waiting up in the dark
For someone that she used to know
No sense in trying to lie to defend
Hope that she'll just let it go

I saw my left hand shaking
'Morning after drinking
With my right hand I covered my eyes
I never felt this funny
When I was in my twenties
Now it's happening every time
Waking on a wasted mind

I, I need, a little help
I'm careless
I, I need, a little help
I, I need, a little help
How embarrassing
I, I need, a little help
I, I need, a little help
I'm careless
I, I need, a little help
I, I need, a little help
How embarrassing
I, I need, a little help

I saw my left hand shaking
'Morning after drinking
With my right hand I covered my eyes
