

## My Show Business Days

The Frogs

my show business days  
they said were over with and done  
but the time had come to grace the stage  
once again i had to take the stage  
and show them how it was done  
i was the only one  
they said i was nuts  
they didn't know t' how t' cut it up  
i showed 'em how t' do it right  
each and ev'ry night a standing ovation  
but then the end of the show business days  
we knew they had, had to end  
and as i look back on my memories  
oh I've got some good show business memories  
like the time with rosie gal marie  
she has memories  
ahh it's all i got left  
my show business days were here  
and now they've left me  
alone
