

## Bae

### The Front Bottoms

When you realize the crew you roll with  
Is actually what makes you anxious  
When you realize the hand you hold with  
Is opposite the hand it's supposed to be

Bae, bae, bae, bae

I gotta move my car, I gotta move your couch  
I learned that love tastes good, you shoved it in my mouth  
I got all twisted up, you helped straighten me out  
I gotta wake up early, I gotta move your couch

There's people right outside my door  
I wanna help them but I don't know what they're looking for  
They've been in and out here all day  
Grind my teeth as a dog pushes up against my leg

Leg, leg, leg, leg

I gotta move my car, I gotta move your couch  
I learned that love tastes good, you shoved it in my mouth  
I got all twisted up, you helped straighten me out  
I gotta wake up early, I gotta move your couch

I gotta move my car, I gotta move your couch  
I learned that love tastes good, you shoved it in my mouth  
I got all twisted up, you helped straighten me out  
I gotta wake up early, I gotta move your couch

When you realize the crew you roll with  
Is actually what makes you nervous
