

Raining

The Front Bottoms

It was raining when they let me out of the hospital
I had nothing in my pockets
Still had the bracelet on
Still had the bracelet on, oh yeah
You and me get the chills at the same time
Who would have thought?
The exact vibrations

On the outside I was fine
But inside I was all torn up, yeah
How do you think that felt?
How do you think that felt for me? Yeah

Tracy, or should I call you AnnMarie?
We went flying over all the trees
To see a house built by a mafia member
How do you think that felt?
How do you think that felt for me? Yeah
How do you think that felt?
How do you think that felt for me?
On the outside I was fine
But inside I was all torn up

'Cause I feel absolute fantastic
To fall asleep would take some magic
To fall asleep would take some magic
'Cause I feel absolute fantastic
How do you think that felt?
How do you think that felt for me? Yeah
How do you think that felt?
How do you think that felt for me? Yeah

How do you think that felt?
How do you think that felt for me? Yeah
How do you think that felt?
How do you think that felt for me? Yeah
How do you think that felt?
How do you think that felt for me? Yeah
How do you think that felt?
How do you think that felt for me? Yeah
