

Voodoo Magic

The Front Bottoms

Yeah!

How is this possible? (Woo)

How is this possible? (Woo)

Possible voodoo magic

Someone else controls my pain

Possible voodoo magic

No one else there is to blame

Guess it's possible and more likely

I'm just unlucky, but who's to say

It's not possible

Voodoo magic in the worst possible way

Embarrassed they found a knife

Went back and they found it twice

It's good to know we both get smart

You in your head, me in my heart

Possible voodoo magic

Someone else controls my pain

Possible voodoo magic

No one else there is to blame

Guess it's possible and more likely

I'm just unlucky, but who's to say

It's not possible

Voodoo magic in the worst possible way

Get a dance in the parking lot

Like we were waiting for a jump start

It's good to know it falls apart

You in your head, me in my heart

Embarrassed they found my knife

I went back and I found it twice

It's good to know we both get smart

You in your head, me in my heart

And it's possible voodoo magic

In the worst possible way

And it's possible voodoo magic

But I've no right to complain

And it's possible voodoo magic

Someone else controls my pain

And it's possible voodoo magic

In the worst possible way

It's possible voodoo magic

Someone else controls my pain

Yeah, it's possible voodoo magic

Voodoo magic

But it's possible and it's likely

I'm just unlucky, but who's to say

It's not possible

Voodoo magic in the worst possible way

It's not possible
