

Animus

The Futureheads

Tell me can you get things done?

Tell me can you be productive, can you be the one who can get things done?

Or is your life a pity?

Cause you have lost your energy

Maybe you can get things done?

Maybe you can be productive, you could be the one who can get things done?

Or is your life a struggle?

Did something burst your bubble?

Oh, tell me have you lost your way?

Tell me have you lost your way, is everyday the same like everyday means nothing?

Or shall we tell you how to get things done?

Shall we tell you how to be productive, how to become the one who can get things done?

Or is your life a pity?

Cause you can't find your energy?

Can you remember how to get things done?

Maybe you could start tomorrow and become the one who can get things done?

Life in the bubble

It's nice in the bubble

Is your life a fantasy?

Of everything that you can't be?

Or maybe you can get things done?

Maybe you could be productive, you could be the one who can get things done?

Life in the bubble

It's nice in the bubble

I can't complain when I'm in the bubble

What if I want to complain?

What is every day's the same and I want to complain I want to complain?

Only movement can set you free

From this lonely ceremony

Maybe you can get things done?

Maybe you can be productive, you could be the one who can get things

done?

Maybe you can get things done?

Maybe you can be productive, you could be the one who can get things done?

Get things done
