

Remote Control

The Futureheads

Somebody stole our remote control (control-trol,
control-trol)
And they can turn us off you know whenever they want
And they can pause us anytime
And they can ? us anytime

And they can rewind
And start again

Somebody stole our remote control (control-trol,
control-trol)
And they can turn us off you know whenever they want
And they can pause us anytime
And they can ? us anytime

And they can rewind
And start again

Somebody stole our remote control (this is not good for
us)
They can rewind by the whole day (this is not)
Go back in time erase

They can rewind by the whole day
Go back in time erase the errors that you made today
You will be amazed by the gesture

Somebody stole our remote control
And they can take away our rhythm
Somebody stole our remote control
And now we live inside a machine
