

20s

The Game

Woke up away and looked up to the rafters,
Wonder what were after
No I, can't turn away
Like the wallpaper that's plastered
Walk me through it faster

You, you will be just fine
We can blur our eyes
Til the picture lies
You, you will freeze the frame someday

I'm here for a good time, not a long time
See you outside of the club in that long line
Come in, ya party with us
Come in, get your night started with us
I see you dancing, the way yours hips glow
Throw your hands in the sky
Ya we getting high
Came in the club now we about to ball like a disco
Bottles for everybody, ya it's time to get it

You, you will be just fine
We can blur our eyes
Til the picture lies
You, you will freeze the frame someday
And everything will fall away

You, you will be just fine
We can blur our eyes
Til the picture lies
You, you will freeze the frame someday
And everything will fall away

You, you will be just fine
We can blur our eyes
Til the picture lies
You, you will freeze the frame someday

You, you will be just fine
We can blur our eyes
Til the picture lies
You, you will freeze the frame someday
And everything will fall away

It's time to get it
Not a long time
In that long line
Party with us
Come in
Start it with us
Its time to get it
Its time to get it
Ball like a disco
