Get my people out them chains nigga
I mean handcuffs, time to man up
Put my hands up? Fuck you sayin' bruh
Cause I'm a black man in a Phantom

You mad cause your daughter fuck with me on spring break
Well, I'm a fuck her 'til the springs break

Yeah Roll another one cause I'm winning
And my four door looking real photogenic
Jam 'em on the tire, in threads that won't expire
I'm in a class of my own, my teacher got fired
Money getting long, pussy rate keep rising
Versace outfit cost me 3,000
From the P houses, did it from the weak hours
Selling that chicken no lemon pepper, no sweet and sour
First you get the power, then you get respect
I'm getting so much money I can buy ya bitch
Take it how you wanna, if you wanna take it
I like clubs where all the women working naked
Fell in love with a waitress what the fuck I'm thinking
Bought that ho a ring it was for her pinky

Gold medals on my neck, I call it Michael Phelps
Hoes settling for less, I call 'em bottom shelf
Niggas tough on them blogs and never did nothing at all
On the road to the riches, bitches not tagging along

Unless it's ass in a thong, hit that ass and I'm gone
Disrespect my nigga Boss and I'm flashing the chrome

This the voice of ghetto intelligence, if you got work
Go to work, the work at your residence...

Word to Muhammad, that triple beam is heaven-sent
Riding through the jungles in that motherfucking elephant
That's a gray ghost, with the ears on it
Swimming through the hood like it got fins on it (Tell 'em!)
