

# All Eyez

## The Game

All eyes on ya  
Ask you how your week been  
Workin' always, let me  
Work you out for the weekend  
Baby, I'm a beast, uh-huh  
Can you tame me?  
I'm gon' let it out  
Let you down

Let's get to it  
Let me lick you in places you never been licked before  
Take you to places you never been before  
Like London, Paris, see that Lamborghini outside  
We can share it, J and B without the marriage  
Horse and carriage, señorita  
Snapchat dog filters live from Ibiza  
Breakfast on the beach, that mean sex is on the beach  
You lookin' like a fruit platter, I'm a bite into your peach  
And um, I think about to massage your feet  
And um, you got a body, you remind of my Jeep  
And um, I must look amazing with you  
Cause every time you on my arm I got

All eyes on me  
I need your attention  
Put your body on me  
You the one I'm missin'  
All eyes on me  
I don't want your love  
We ain't gotta fake it  
We both tryna fuck

'Member when you used to curved me, leave my text message unread?  
And every time I asked to see you, you say you goin' to bed  
Every time I hit you with the good morning you say you workin'  
Now you in my living room twerkin', that's crazy  
You wear that body suit, I know you tryna tease me  
I put on that Tiller, she'd rather fuck me to Weezy  
I remember when your money was young  
And you stripped all week just to get the tan Yeezy's  
Back when lame niggas hit you with the one liners  
All sounding the same like Future and Desiigner  
Now that's my vagina, she told me to sshh  
We in the Chanel store and

All eyes on me  
I need your attention  
Put your body on me  
You the one I'm missin'  
All eyes on me  
I don't want your love  
We ain't gotta fake it  
We both tryna fuck  
All eyes on you

Lookin' at me like you love me  
We can do it now or later

She wan' lick on party favorite  
On my wave, tryna surf it up  
Know we gettin' gnarly, smokin' Marley, burnin' up  
Certified with the double-M pullin' up  
Tooly got a room, we'll play "Room Up In Here", been here  
Girl, you know my intentions  
I put you on the wall like a picture  
Round after round to decisions  
Say you wanna show me what I'm missin'  
All the lights low, but we lit up  
I don't let you down if I get up  
Like you got a man, but you're fed up  
But you know when we get together

You want me to say your name, huh?  
Karrueche!

All eyes on me  
I need your attention  
Put your body on me  
You the one I'm missin'  
All eyes on me  
I don't want your love  
We ain't gotta fake it  
We both tryna fuck

All eyes on me  
All eyes on me
