

Two Blunts

The Game

I got two blunts
Two blunts I got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, I got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, I got two blunts

You know I'm faithful to the ganja
And I'm in love with marijuana, juana
I'm gettin' head when the sun up, sun up
While I'm listenin' to The Chronic
You got that good weed, breathe
And we can smoke a blunt a piece
She tryna smoke up all my weed
I told her roll up two of these
It got me feelin' so high, high
Feel like I'm a god, god
Oh can we touch the sky, sky high
Baby we can fly, fly
Can we just smoke

Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts

Never too much, never too much
I roll you one, roll my crew one
As soon as I'm done, buy the new one
Fuck about the cops, they won't do nothin'
A couple pounds, I just grew some
Never leave the crib without my jewels on
You ain't got that pack, you gotta move on
Girl I got the fat, my shit too strong
Damn I don't smoke by the gram
I'ma roll up an eighth, take that straight to the face
And if you ain't goin' to hell what you do it for?
I'm tryna get you higher than you ever been before
I'm just at the crib chillin' with your bitch and

Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts
Two blunts I got two blunts

Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, we got two blunts

Two blunts, two blunts, two blunts
Won't you smoke with me
Got two blunts, two blunts, two blunts
Smoke with me
I got two blunts

Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, I got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, I got two blunts
Two blunts I got two blunts
Light it up, go and light it up
One time for the Buddha
With the two blunts, I got two blunts
