

# I Can't Live Without Your Love

The Gap Band

I just can't get used to  
To the thought of being here  
Without your love  
I need your love  
And I think I never will  
'Cause the memory's still here  
That we once knew  
I'm missing you

'Cause in the heat of night  
I dreamed of how we used to  
Make things right, oh...  
And I realized  
That I need you here  
Right by my side, whoa, yeah

'Cause I can't live without your love  
Always thinking 'bout your love  
Don't you know that I  
Can't live without your love  
I can't live without your love  
Always thinking 'bout your love  
(Just can't do without your love)  
Don't you know that I  
Can't live without your love

'Cause in the heat of night  
I dreamed of how we used to  
Make things right, yeah, whoa...  
And I realized  
That I need you here  
Right by my side, oh...  
Yeah

Oh, I can't live without your love  
Always thinking 'bout your love  
Don't you know that I  
Can't live without your love  
I can't live without your love  
I can't resist speaking 'bout your love  
(Just can't do without your love)  
Don't you know that I  
Can't live without your love

I can't live without your love  
Just can't do without your love  
Don't you know that I just can't live  
Without your love, yeah

I can't without you, baby...
