

## On Delay

## The Gathering

So I just found out you're leaving  
And we are here to stay  
Alone with all your laundry  
My life put on delay

You put me on delay

And I panicked on the floor  
And my heart dropped to the ground

So I pray, please just stay  
Don't leave us here alone  
You can't go, it's all wrong  
I'm frozen to the bone

Don't leave us  
Damn I cried

As always, I was sober  
You drank your night away  
I thought my life was over  
Your show was far away

You left me on display  
You put me on delay

And I panicked on the floor  
And my heart dropped to the ground

So I pray, please just stay  
Don't leave us here alone  
You can't go, it's all wrong  
I'm frozen to the bone

You took me off your list  
Goddamn I cried  
Not even bottom list  
Your head was in the sand  
Hoping it would pass  
And it did pass

So I pray, please stay  
Don't leave us here alone  
You can't go, it's all wrong  
I'm frozen to the bone
