

## Paper Waves

### The Gathering

Sun comes out - Wakes me up  
Wanna sleep, need to sleep

Saw your face - In my dreams  
Fade away, far away

Fade away, fade away

You took your time - Passing by  
Smiles and tears -No one cares

Had you once -Now you're gone  
Want you here, Need you near

Dreams and life it seems  
Are crushing boundaries in me  
Paper waves and seas - Ride the tide with me

Need to see - You're not far from me  
I'm breaking time -Crossing lines

I start to run -to catch the sun  
From falling down - and burn this town

I try to reach -You slip away  
Can't you stay - Please just stay

Cold and warmth collide  
Turning dark and light, inside  
Nights we over fly - All logic gone awry

To know we might not meet again, I hardly bare to look at you  
In all this mess we don't complain, we kind of always knew
