

## The Sky People

## The Gathering

Confidence and hope  
I'm looking forward to future plans  
Not able to realize yet  
Makes me wanna take a rope  
Or swallow some pills any time  
But let's have a look  
In the distance I see light

Gives me satisfaction  
Keeps me hangin' on  
When stability is gone

I take my own life  
I make the decisions  
I have a goal  
That's worth living  
Confidence in what I do  
Realising my hope  
That's the bright side I'm looking for

But I know how to take it  
In times when my life looks shattered  
And I'm not feeling to well

Confused when I think  
Which direction not for sure  
Dreams far away  
Time doesn't seem to go on
