

# I Stand In Doubt

The Generators

One billion souls staring up into the stars  
Praying to a god  
To save them from whom they are  
Millions go missing at each other and every turn  
Get lost in the words  
Truth or fiction? In a book

Clutch on to symbols  
Plea for miracles  
Hope for some common good  
In this unforgiving world

Buy back our innocence  
We can repent from our sins  
We can heal all our pain from television evangelists  
Throw our trust in faith  
That one day we will be saved  
We can flush our dollars down the drain  
For the modern day

Clutch on to symbols  
Plea for miracles  
Hope for some common good  
In this unforgiving world

Show me a sign  
Shed me some light  
After this darkness  
There'll be some paradise

I stand in doubt  
I must admit  
How can there be a god  
In a world like this?  
I stand and doubt
