

## Get A Grip

The Germs

I'm the only thing you need  
I'm so real you can feel me bleed  
I'm the coat you left behind  
I'm the one you'll never find  
Get a grip, get a grip on me

On the streets another thing  
I'll push your knife and pull your string  
Put your thoughts into my mind  
I'll show your things of another kind  
Get a grip, get a grip on me
