Breathless

The Ghost Inside

We have to follow, go where our hearts go
For better or worse, it's both a blessing and a curse
We hold on to every moment embraced along the way
We need to see it again, live it again, hear it
That's all we can ask for

It leaves me breathless, takes all the air away from my lungs
I wish this was endless, if only our song could forever be sung

These days are numbered, so keep on screaming until our hearts break
We can't keep hoping for a change
Sorrow, we still don't wanna know
Life will not wait, it's now or never
I said it before, I'll say it again
So sing it again

It leaves me breathless, takes all the air away from my lungs
I wish this was endless, if only our song could forever be sung
And I need to find a way to keep it on repeat
So that when I'm gone, it goes on and on and on

In this place, is my saving grace
I know it's my fate, make no mistake
In this place, is my saving grace
I know it's my fate, make no mistake

Take it away, take it away
Take it away, take it away
Sing it again, scream it again
Return my words to me

It leaves me breathless, takes all the air away from my lungs
I wish this was endless, if only our song could forever be sung
And I need to find a way to keep it on repeat
So that when I'm gone, it goes on and on and on

It leaves me breathless, takes all the air away from my lungs
I wish this was endless, if only our song could forever be sung
