## The Ghost Inside

All the city lights that I'm seeing  
They're the only dream I believe in  
I'm trying, I'm trying for you  
Dying, I'm dying for you  
I said hello, I say goodbye  
And I'll see you again in the next life  
I'm trying, I'm trying for you  
Dying, I'm dying for you

Every time I feel the nights grow cold  
Your memory reminds me to stay gold  
And even though sometimes it rains, sometimes it pours  
This is a struggle, this is my storm

All the city lights that I'm seeing  
They're the only dream I believe in  
I'm trying, I'm trying for you  
Dying, I'm dying for you  
I said hello, I say goodbye  
And I'll see you again in the next life  
I'm trying, I'm trying for you  
Dying, I'm dying for you

And every time I feel the nights grow cold  
Your memory reminds me to stay gold
