Earn It

The Ghost Inside

Listen up
I need you to hear me out so I'll ask this question
Think hard
Are you willing to risk it all to learn this lesson?
Embrace the change
Sometimes in life there's pain
The things that give us hope
Can also take it away

You say it won't be easy
I know it never is
Fight through the fear inside me
Won't dim the light in my chest
I'm not afraid of falling
So put me to the test
'Cause I know that I gotta earn it
You strike the match and I'll burn it down
Strike the match and I'll burn it

Down

The truth hits harder than the lie
You sealed your fate, you chose your side
You take and you take until nothing is mine
But now I draw the line

You say it won't be easy
I know it never is
Fight through the fear inside me
Won't dim the light in my chest
I'm not afraid of falling
So put me to the test
'Cause I know that I gotta earn it
You strike the match and I'll burn it down

I earned it and you didn't
If you want it come get it

If you want it then come and get it, yeah

You say it won't be easy
I know it never is

I know there's demons out there
I lay them all to rest
I've been to hell and back now
It's just a place in my head
I know it's never easy
But put me to the test
'Cause I know that I gotta earn it
You strike the match and I'll burn it down
Burn it down

I earned it and you didn't
If you want it then come get it
