

Going Under

The Ghost Inside

Keep me from going under

We're blind to the brighter days
Can't get a clear view of anything
Storm clouds come creeping in
The time has come, now it's sink or swim

It's time to break from the lies that poison my mind
I'll sever the ties, so long as I remember

Nothing is what it seems
Running from everything
Just darkness underneath
Keep me from going under
Can't find the air to breathe
And I'm drifting out to sea
Will you save me?
Keep me from going under

My thoughts are suffocated
Hung up on what to say
No words, just gray
Displaced in my own headspace

It's time to break from the lies that poison my mind
I'll sever the ties, so long as I remember

Nothing is what it seems
Running from everything
Just darkness underneath
Keep me from going under
Can't find the air to breathe
And I'm drifting out to sea
Will you save me?
Keep me from going under

Screams become white noise, the static is threatening
Dead air consumes, now the silence is deafening

All the discourse has turned to a villainous scheme
This is a curse, wishing for words
Because the silence is deafening

Nothing is what it seems
Running from everything
Will you save me?
Keep me from going under

Nothing is what it seems
Running from everything
Just darkness underneath
Keep me from going under
Can't find the air to breathe
And I'm drifting out to sea
Will you save me?
Keep me from going under

Keep me from going under
Keep me from going under
